STEP 2

ATTACK OR DEFEND?

- Whoever goes first must nominate a card and decide whether they want to use **ATTACK** or **DEFENCE** rating categories in a head-to-head battle.
- Neither player can turn their cards over before choosing their preferred category.

STEP 3

HIGHEST SCORE WINS!

- Once both players have selected their cards. Then it's time to turn over the cards and reveal who won the round.
- If player 1 chooses to "attack" with their card then player 2 must choose to "defend" with their card.
- If player 1 chooses to "defend" with their card then player 2 must choose to "attack" with their card.
- Whichever player has the highest rating wins the round and scores a goal for their team.
- The winning player of each round keeps control of the game and chooses first in the next round.

STEP 4

IF IT'S A DRAW

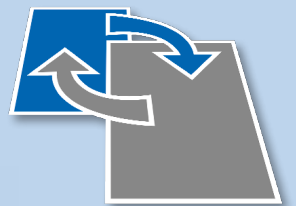

- If both players have the same rating, then combine each player's **ATTACK** and **DEFENCE** stats. The player with the biggest combined rating, wins the round.
- If the **COMBINED** ratings tally also ends in a draw, then neither player scores and a new round begins.
- Whoever chose first in the previous round keeps control and chooses first again in the new round.

STEP 5

MAKE A SUBSTITUTION

- Make a change at any point in the game by choosing a sub to replace a player in your line-up.

- The substitution must be called before both players select their cards in a round.
- You cannot make a substitution in the final round.

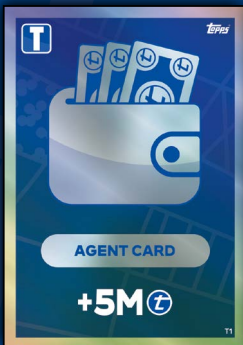

STEP 6

THE TACTIC ZONE

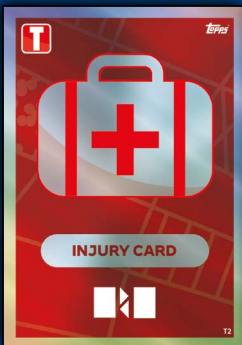

- Load up your tactics zone with up to 4 special tactic cards.
- You can only use a maximum of any 2 tactic cards.
- Any individual tactic card can only be used once.
- You must clearly nominate your specific tactic card at the same time you select your player card.
- You must remember where your tactic cards are positioned within the tactics zone. No peeking.
- You must always be specific about which tactic card you are selecting within any individual round.
- Your opponent can also use a tactic card within the same round.
- Neither player can use a tactic card in the final round.

HOW TO USE YOUR TACTIC CARDS

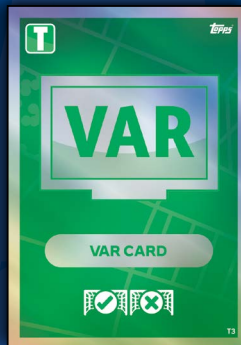

AGENT CARD
Add an extra +5 million value to your 100 million team budget.

INJURY CARD
Force your opponent to remove a player of your choosing. They must replace with 1 of their substitute cards. If they have used all their subs and there is an empty card holder at the end of the game, this automatically counts as a goal for you.

REFEREE CARD
Deduct -5 points from the rating on your opponents card.

VAR CARD
You can challenge a goal that your opponent has scored. Show the VAR card and then toss a coin to see if the goal stands or if it is disallowed.

WHO WINS?

- Place your winning & losing cards in piles at the end of each round so you can keep track of the score.
- The winner of the game is the player who has won the most rounds once all cards have been played.
